## **Buitenzorg: Journal of Tropical Science**

**Buitenzorg: Journal of Tropical Science** is a peer-reviewed journal that aims to provide a platform for researchers and scholars to publish their original research in all fields of tropical science in both Indonesian and English. The scope of the journal covers a broad range of topics, including, but not limited to, tropical biodiversity, agriculture, biology, ecology, environmental science, forestry, climate, and health sciences. Our goal is to facilitate the dissemination of high-quality research that contributes to the advancement of knowledge and the sustainable development of tropical regions around the world. We welcome submissions from scholars, scientists, and researchers from all over the world. Our rigorous peer-review process ensures that all articles published in **Buitenzorg: Journal of Tropical Science** meet high standards of quality and scientific integrity. The journal is published TWICE a year, in June and December, starting in 2024 by the **Innovation Centre for Tropical Sciences Foundation**.
